

WallBeds Australia Bookcase with Door Assembly Instructions

Insert all cam locks into the following panels: Top, Bottom, Kick and Back.

Insert Cam pins into the following panels: Sides and the opposite side to the cam locks on the Top & Bottom Panels.

Attach the back panel (H) to one of the side panels (G) with the cam locks facing towards the back. Then attach the Top (I) ensuring the cam locks are facing UP. The Cam pins on the Top panel should also be attached to the Back panel. Attach the Bottom (I) with the cam locks facing down and the cam pins should also attach to the back. Attach the Kick panel (K) Tighten all cam locks using a Phillips head screw driver (not a power tool) Then attach the remaining Side panel (H) Tighten all cam locks using a Phillips head screw driver (not a power tool)

Ensure all finished edges are also facing the same way.

Stand the book shelf up ensure that the front edge of the bookcase is flush with the front edge of the Bed Cabinet before fixing to the side of the Bed Cabinet using the 28mm wood screws supplied. It is recommended that you use some of the pre-drilled shelf pin holes.

Press the shelf pins into the shelf pin holes at the desired height for your shelves.

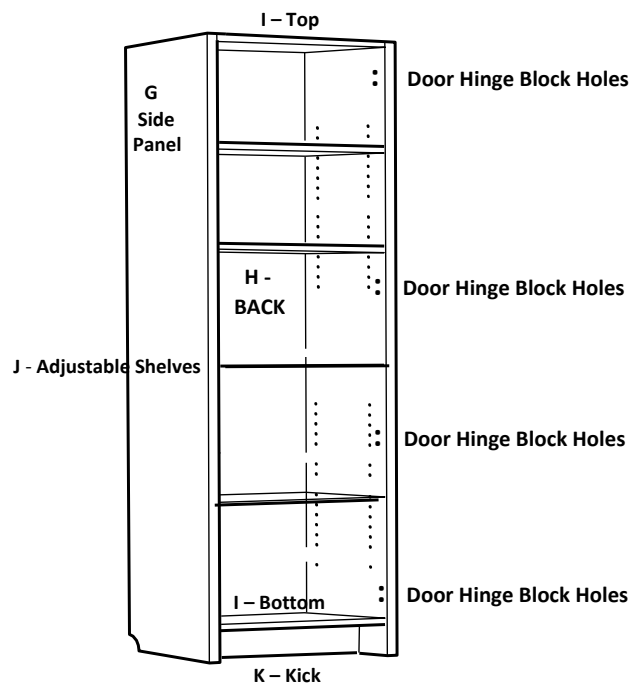

Fitting the Door

Screw the door hinge blocks to the pre-drilled holes on either the L/H side or R/H side. Ensure the arrow indicator on the hinge block is facing towards the front edge of the side panel.

Attach the door hinges into the door by placing the cup part of the hinge into the door panel Close the flap on the hinge & this will expand the cup holes and secure the hinge into the door panel.

Note – The hinges supplied do not require any fixing screws.

Clip the hinge arm into the hinge block previously attached to the bookcase.
